

RAYMOND

The site of the One Million Dollar Factory of the Canadian Sugar Factor, Ltd. In the center of the best-raising district of Southern Alberta.

Raymond Recorder

RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Vol. 29

FRIDAY, JULY 18, 1930

No 17

News Notes

Mr. and Mrs. D. L. Gilbert, are holidaying now at Cold Lake, Alberta.

Paul Dahl was a Lethbridge visitor on Friday of last week.

Misses Lillian and Atha Depew spent last week visiting in Lethbridge with Mrs. H. C. Gowan, a sister.

Frank Shaw and family were Lethbridge visitors on Tuesday of this week.

Don't forget Magrath's two day Fair on Wed. and Thurs., July 23 and 24. Be There.

Vern Henry spent the week end with relatives and friends in Taber, his old home.

Roscoe Humphreys and wife are holidaying at the present time on a motor trip.

Doug. Allred is showing some real stuff in his mound work with Lethbridge.

A large number of Raymond people were in Magrath on Sunday attending the Genealogical Convention held there for the three Canadian Stakes.

Frank Barrows and family of Warner visited with Ted Gourley and family on Sunday last.

Quite a few Raymond people were in Lethbridge for the Baseball games between the Red Sox and the Chicago Athletics.

Read the advt. for the Magrath Fair and Race Meet in this issue of the Recorder and get ready to attend one of the 2 days, Wednesday, July 23, or Thursday July 24.

Douglas Paris of the Canadian Bank of Commerce staff spent part of his summer holidays with relatives here and part of the time in Waterton Park.

M. R. Woolf, local Pool Elevator Agent here left on his summer holiday on Monday of this week. Part of the time will likely be spent in Waterton Park.

Mr. and Mrs. Dr. Leech entertained Brig.-Gen. J. S. Stewart, his companion A. B. Hogg, and a number of the returned men following the Conservative meeting on Wednesday evening.

W. Paris and Jas. Anderson made a flying trip to Calgary and Edmonton last week visiting enroute. They declare crop prospects here are much better than in the district between Calgary and Edmonton.

Despite the hot weather, crops are growing well and showing considerable improvement since the shower of last week. What we need now is some more rain. Rain makers please take notice.

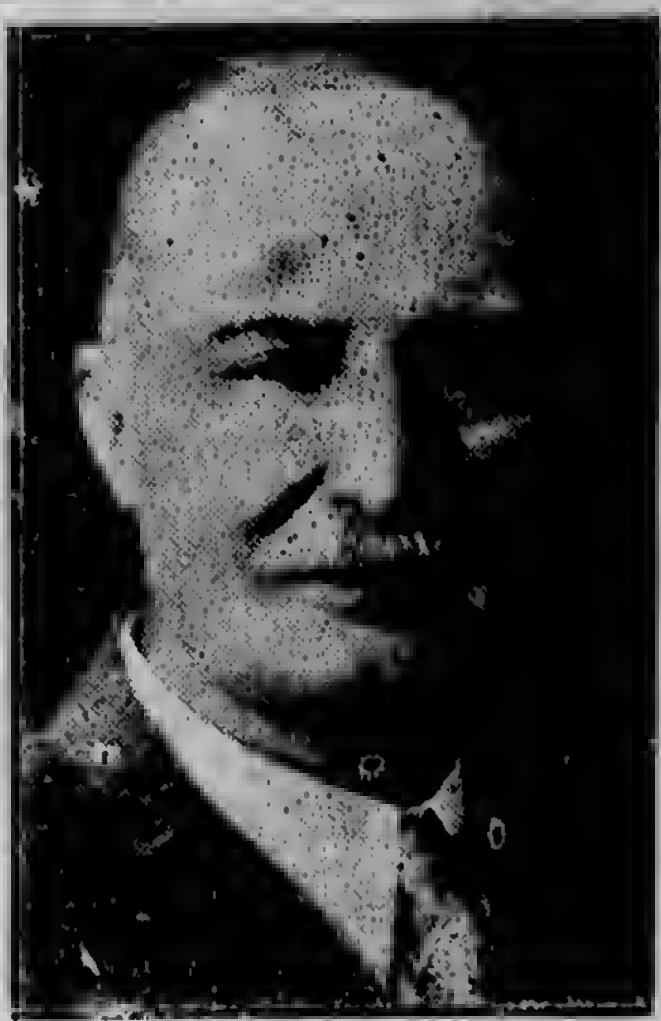

70 persons were killed when a train car plunged in the river from a cantilever bridge in Buenos Aires on Saturday last. Only three who were riding on the rear platform escaped.

An Excursion of the Raymond 1st Ward to the Alberta Temple is scheduled for July 24th. An effort will be made to have a minimum of 100 people there that day from Raymond 1st, and those in charge hope to make it 140.

Last week the excessive heat brought hail in many places. Magrath 25 p.e. damage, Drumheller 25 to 100 p.e. damage; Wrentham, heavy damage in places; Provost some places, 100 p.e. Luckily we escaped hail and enjoyed the rain.

In the neighborhood of 400 people thronged the street corner by the Broadway Store when the Open Air Meeting was conducted by missionaries from the Northwestern States Mission. The meeting lasted about 1 1/2 hours and the audience was very attentive to the songs and discourses of the visitors. Come again to Raymond.

Raymond Wins Challenge Cup

THOS. O. KING

U.F.A. CANDIDATE FOR LETHBRIDGE FEDERAL CONSTITUENCY

The subject of this sketch was born in Salt Lake City, Utah, and moved to Idaho with his parents in the 80's, during his early years, and engaged in stock-raising and ranching.

He married while living in Idaho and moved to Canada in the 90's following the ranching business here. For a number of years he lived on the St. Mary's River south and east of Cardston and was foreman for a large cattle ranch owned by King and Jones. While here he helped to organize the first school district in Southern Alberta known as the Colles School District.

In 1902 the cattle were sold to Mackie and moved to the Mackie Ranch at Milk River. Following this sale he and his brother L. D. King moved to Raymond and entered the mercantile business under the firm name of King Bros. and operated a general merchandising business very successfully for years. They also engaged in farming and stock-raising, which line T. O. King is still following.

He became a member of the first Town Council of Raymond and for years has been a member of Raymond's school board.

A man of reserved disposition he is well known and highly respected by all who know him and is the father of a highly respected family.

At present, besides holding a number of civic positions, locally he is President of the Alberta Trustees Association and for a long while has been a member of the Grain Standards Board.

CAMPAIGN ISSUES CLEARLY DEFINED

Ottawa, July 17; (Special to the Recorder)—Outside local issues which will be a major factor in a relatively small number of constituencies the Federal election campaign appears to be taking definite shape along two lines; the King Government on its record and its budget, or the Conservative party on the pledges laid down by Mr. Bennett at Winnipeg.

The latter number ten and employ many constituent parts which might emerge as planks by themselves, but the two according to advices reaching the capital—which are really issues are unemployment and the condition of agriculture throughout Canada.

Mr. King, during his present tour of Western Canada, is finding for himself conditions which amazed Mr. Bennett as he said on his return to the East. It will not be at all surprising if Mr. King in the light of personal experience, announces a much more immediate and radical method of dealing with unemployment than he has yet laid down to counteract the Conservative promise of an immediate session of Parliament to deal with the matter.

Such a session would undoubtedly affect Canada's representation at the Economic Conference overseas this fall. Out of such a conference Mr.

Raymond's ball tossers went to Cardston on Monday of this week, and brought home the bacon to the tune of 7-2, in a game featured by steady long headed playing by both teams.

K. Allred on the hill for Raymond was going like a big leaguer and held Cardston to 1 safe hit, getting 11 strikeouts and only 33 men facing him in the nine frames. Good fielding on the part of the locals spoiled a lot of good opportunities and in the sixth, with one down and K. Long on third and Brooks on second, Ken took Cahoon out by the strikeout route and got McKenzie on an infield pop to the box.

The Temple City nine didn't fare so well. Collins started the heaving and Raymond started slugging one run in the first and the bases full when the side went out. In the second Hawkins got on, and then Fairbanks poled out a homer and scored himself and Hawkins, and Joe McLean and Nalder both scored before the side was retired. This was enough for Collins and Woodward was sent in to stop the funny work. He got along better,

but Raymond kept hitting and in the third Kirkham got a 3 bagger and scored on Hawkins' sacrifice and again in the seventh Robbins crossed the plate on a two-bagger by Allred. This finished the scoring as Cardston scored but twice in the first on a bad peg to 3rd and two overthrows. For eight innings then they went scoreless despite several attempts and a great deal of razzing of Raymond's battery.

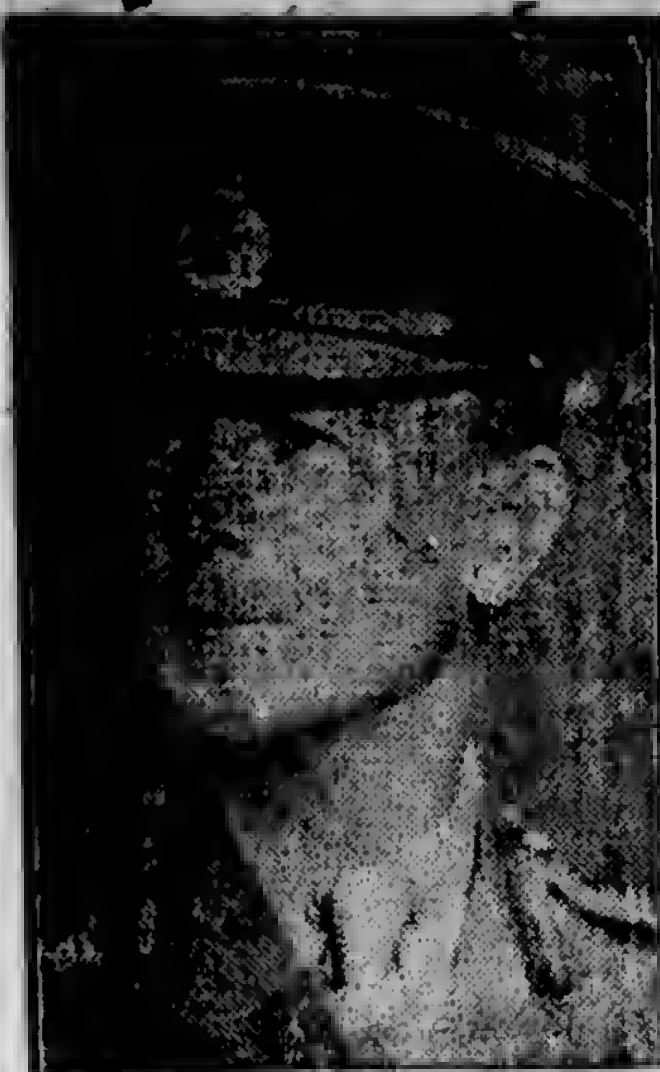

The lineup was as follows:—

Cardston:—K. Long, 3rd; Brooks, ss; Cahoon, 1st; McKenzie, c; Collins, p and rf; Woodward, rf and p; Newbar, cf; Parker, 2b; G. Hansen, 1b.
Raymond:—McLean, 3b; Nalder, 2b; Humphreys, rf; Robbins, lf; Allred, p; Hicken, c; Kirkham, cf; Hawkins, ss; Fairbanks, 1b.

Score by Innings	R.	H.	E.
Cardston 200	000	000	2 1 5
Raymond 141	000	100	7 10 5

Dan Caldwell and R. S. Orgill handed out the decisions with the usual suggestions and assists from the fans.

Conservative Meeting Held At Raymond

BRIG.-GEN. J. S. STEWART

Conservative Candidate for the Lethbridge Federal Constituency.

The first political meeting of the Dominion campaign was held here Wednesday evening when Brig.-Gen. J. S. Stewart, Conservative Candidate and A. B. Hogg of Lethbridge addressed a small but attentive audience in the Second Ward Chapel.

Mayor Cope acted as chairman of the meeting which was called to order at 9 p.m.

Mr. Hogg, was the first speaker and said that this was a very important campaign and that all classes had decided it was time for a change

King is preaching the gospel of future employment for Canadians, but Mr. Bennett has seized upon the present situation as demanding action here at once. There is really no reason why a special session can't proceed with the conference. It would probably reduce the number of Canadian

Reg. Cooper, Cliff Nalder, et al walking the streets of Cardston, determined not to come home without the Trophy Cup won by Raymond on Monday.

Vern Henry dejected because he tarried too long in Taber on Monday.

L. D. King rehearsing the fine details of the Calgary Show to a group of interested listeners.

ARTHUR G. BAALIM

Liberal Candidate for the Lethbridge Federal Constituency.

Mr. Baalim is known throughout Southern Alberta as a "community builder." Throughout the fourteen years in which he has lived in Lethbridge he has interested himself in every movement for the advancement of Lethbridge and Southern Alberta—building up the city where he has acquired large interests, aiding in the development of a better highway system throughout the south, working as president of the Lethbridge Board of Trade for the all-round development of this section of the province.

Arthur G. Baalim was born on the Isle of Wight 48 years ago and spent the early years of his life in Brighton and Felixstowe districts in the southern part of England. He came to Canada when he was 12 years old and lived for five years in Ontario before coming "west" and settling first in Edmonton.

In 1916 Mr. Baalim secured the agency for the new Chevrolet motor car just then coming on the market, for Lethbridge and the territory in Southern Alberta from Walsh to Crow's Nest, and came to this city, establishing the Baalim Motor company of which company he is still president.

Since coming to Lethbridge he has always been identified with community enterprises. He was president of the Rotary Club in 1918, and the same year was chairman of the Victory Loan committee which put over a most successful drive. In 1919 he acquired his first real estate in Lethbridge and built the Baalim Motor company building, and during the past few years has acquired downtown property upon which he has erected substantial buildings in the business area. In 1927 Mr. Baalim was chairman of the Jubilee committee which staged the Lethbridge celebration of the diamond jubilee of Confederation. In the same year he was chairman of the community hotel drive which resulted in the erection of the \$300,000 Marquis hotel, and he is still president of the Marquis Hotel company. He is, in addition president of the Baalim Motor company, Bawden Motors, president of the Northern Light Refineries, and has been president of the Board of Trade for 1929 and 1930. His interest in highway construction is attested by the fact that he was for several years president of Red Trail association and for two years president of the Sunshine Trail association, and at the present time he is a director of the provincial Alberta Motor association. During recent years he has taken a great interest in the development of the tourist traffic and the building up of Waterton National Park as the chief tourist attraction of Southern Alberta.

Mr. Baalim is an Anglican, is married, and has five children.

"Does a man know how to handle a baby?" asks a writer. It depends largely on how old she is.

An author states that he always does his hardest work before breakfast. Getting up, for instance.

BANK OF MONTREAL CROP REPORT

General.—Crop conditions generally in Saskatchewan and Manitoba are satisfactory, but more rain is needed in southern Saskatchewan and practically the whole of Alberta, with the exception of the Peace River district. Some damage by hail is reported from all three Provinces. In the Province of Quebec fine weather in many sections has been beneficial, and crops in general continue to be in a satisfactory condition except on low lying lands. In Ontario ample moisture and warmth have continued to promote rapid growth and prospects of a good average crop are reported from all sections. In the Maritime Provinces recent rains have improved conditions in many sections and crops are making satisfactory progress, except in some parts of Nova Scotia and Prince Edward Island, where there has been a lack of moisture. In British Columbia warm weather now prevails and crops are making rapid progress.

PRAIRIE PROVINCES

ALBERTA. Northeastern Area.—Following heavy showers crops not damaged by wind are making good progress and there is sufficient moisture for a week or two. Southeastern Area.—Rain is needed within a few days to ensure a fair crop. Western Area.—There has been practically no rain during the past week. Crops now need moisture but are not yet suffering seriously. The sugar beet crop is in good condition. SASKATCHEWAN. Northern Area.—With ample moisture wheat is 25 p.e. ahead out with a height of from 15 to 20 inches. There has been some hail damage but a good average crop is in prospect. Southern Area.—Moisture conditions are fair but rain will be required soon. Wheat is 60 p.e. ahead out. The straw is short. With favorable conditions the yield will be somewhat under average. MANITOBA.—With warm weather and frequent rains all crops continue to make satisfactory progress. Wheat is nearly all in advanced shot blade and it is estimated 60 to 75 p.e. as already headed out. Some damage from cyclonic winds, accompanied by heavy rains and hail is reported from points in the West of the Province but the extent of the losses has not yet been determined.

News Notes

Wm. Mitchell who is working in Lethbridge spent the week-end in Raymond.

W. G. Meeks and party were Cardston visitors on Sunday last returning in the evening.

A well-known racing motorist is described as a man of parts. Spare ones!

The life of an imposter is a very monotonous one, says an ex-convict. It is just one sham thing after another!

Fascinating Links in Canada's History

Ottawa, July 18, (Special to the Recorder) A gift of a rifle was made to the Dominion Archives during the past month, by James T. Fitzpatrick of Brockville. The gun is believed to be the only one of its kind in existence and in reality is a combination of two rifles in one.

The rifle was patented in the year 1888 by the late P. W. Strong manufacturer and the founder of the cheese industry in Leeds county.

The invention was known as Strong's compound differential rifle and was a double barreled magazine rifle, one barrel used for the firing of 22 calibre shells and the other for shells of .45 calibre. It was also equipped with two firing pins and by swing of a lever forming part of the lever guard the barrel containing the shell of larger calibre brought into position for firing.

The estimated value of the rifle by Mr. Strong was between \$400 and \$500 and at the time of his death the rifle was left to James T. Fitzpatrick.

DID YOU EVER STOP TO THINK?

By EDSON R. WAITE

Recently my little family and myself spent part of our vacation at Los Angeles and put up at the Alexandria hotel, a famous house noted for solid comfort, the excellence and spaciousness of its guest room and the public rooms and for wonderful food whether in the cafeteria, the Coffee Shop or in the big main dining room, and noted above all for the reasonableness for the rates charged. Guests from all over the United States were there, real folks people you like to rub elbows with, an entire absence of the snobbishness you run into in some hotels. The bell boys, the waitresses, the waiters the chambermaids the clerks the elevator boys, assistant manager in fact everyone of a whole army of employee in this big hotel right in the heart of Los Angeles were all so pleasant striving to please and make you feel at home no grouches anywhere. They had all the guests there including our selves: regretting when the time came for them to go home or to continue on their journey. I became curious to know who was the guiding spirit of and the real head of this great Alexandria Hotel. I had no trouble in locating him, Senator Charles B. Hamilton, a big man physically and a big man in the hotel business a hearty head a reassuring smile and a ready acquiescence to my request for information. "How do you do it, the way folk are treated here surely causes them to return and to tell their friends to be sure to go to the Alexandria."

"You are right," said Hamilton who not only controls the destinies of one of America's great hotels and one of Los Angeles' best thought of hotels but all the other hotels in the Hamilton Chain. "It's the return engagement that counts, anywhere in the hotel business or in any business. Run a good hotel good all the time, give your guests the maximum of comfort without extravagance; we supply do here at the Alexandria and at our other hotels - recommendations, service hospitality and popular rates for rooms food and in all departments instill these fundamentals thoroughly in the minds of all employees and the results are mutually advantageous and profitable for both the guests and the hotel."

ITS NO WONDER FOLKS LIKE TO GO TO LOS ANGELES AND TO ITS FRIENDLY WONDERFUL ALEXANDRIA HOTEL.

Mrs. A. W. Kirkham was hostess at an afternoon tea on Thursday in compliment to Mrs. Wm. Clemis who is leaving shortly to make her home in Lethbridge. Out of town guests were Mrs. J. F. Anderson, Mrs. D. Clemis and Mrs. J. Holman of Lethbridge.

News Notes

The M.I.A. Institute will be held in the Raymond Opera House on Saturday and Sunday, August 2nd and 3rd, in conjunction with the Lethbridge by Georgia and Welburn, circled tri-Stake Fathers and Sons Outing will be held, including Taylor, Alberta and Lethbridge Stakes. Watch for more detail next week.

The Pot of gold at the end of the Rainbow is usually considered to be the journey's end. George and Welburn VanOrman found theirs at the beginning of their wedded life. About 90 friends met at the home games the lights were turned on show of Mrs. Wm. Wilde, and after the i t a beautiful rainbow, the guests Archie Bennett of Salt Lake City on around the pot of gold to view its contents. Many lovely gifts were there but could not be opened until the sunshine and rainbow appeared following the shower of rice. Refreshments were served by the hostesses, Orpha, Jennie, Lorelle, Fern and Ellen completed a very happy time.

CANADA POSSESSES GREAT COAL DEPOSITS

Ottawa, July 10 (Special to the Recorder) Canada has one-sixth of all the coal in the world. Her reserves are second only to those of the United States, which has the largest known reserves of coal, according to information received from the Natural Resources Intelligence Service of Canada. A table of the estimated coal resources of Canada, including seams of one foot and over, to a depth of 4,000 feet, shows that over a total area of 26,219.31 square miles the estimated metric tons of natural coal reserves total 413,816,965,000.

Probably coal reserves, including seams of the same size as above, and covering an area of 84,662.5 square miles amount to 797,920,284,000 metric tons. These figures cover the provinces of Nova Scotia New Brunswick, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia and the Yukon, the North-West Territories and the Arctic Islands.

Other figures which deal only with Nova Scotia Alberta and British Columbia including seams of two feet and over at depths between 4,000 and 6,000 feet, show that the total metric tons of probable reserves in these sections amount to 17,499,000,000 covering an area altogether of 287 square miles.

Actual coal reserves (based on actual thickness and extent) in various parts of Canada are estimated as follows: Nova Scotia, 2,137,736,000 metric tons of bituminous coal and 50,415,000 metric tons of Cannel coal; Saskatchewan, 2,412,000,000 metric tons of lignite coal; Alberta, 382,500,000 metric tons of lignite of sub-bituminous, 1,197,000,000 metric tons of low-carbon bituminous; 2,026,800,000 metric tons of bituminous, anthracite and high-carbon bituminous, and 369,000,000 metric tons of semi anthracite; British Columbia, 22,666,014,000 metric tons of semi-anthracite and bituminous; 118,000,000 metric tons of low-carbon bituminous and 60,000,000 tons of lignite.

CRYSTAL DAIRY, LIMITED

Conventions. They left for Salt Lake City this morning.

Word was received from Payson, Utah on Thursday morning that Albert Powell, a brother of Mrs. W. W. Depew, Sr., was not expected to live. In the evening word came that he had passed away. Mrs. Depew left on Thursday's morning train and will attend the funeral services. Death was due to heart trouble, hardening of the arteries and high-blood pressure. He was an old-time here and the sad news will be heard with regret by his many friends and acquaintances at Raymond.

To the Voters of Lethbridge Federal Constituency

DEAR SIR OR MADAM:—

THE LETHBRIDGE FEDERAL U. F. A. IN SOLICITING YOUR VOTES FOR ITS NOMINEE MR. T. O. KING, BEGS TO DRAW YOUR ATTENTION TO THE FACT THAT THE U. F. A. GROUP AT OTTAWA, OF WHICH MR. KING WHEN ELECTED, WILL BECOME A WHOLE-HEARTED SUPPORTER, HAS CONSISTENTLY AND FEARLESSLY, ADVOCATED IN THE HOUSE OF COMMONS POLICIES WHICH HAVE HAD IN VIEW THE BENEFITTING OF AGRICULTURE, AND OF THE PEOPLE OF THE WEST, GENERALLY.

THE CROWS NEST PASS AGREEMENT WHICH WAS RENEWED IN 1922 AS A DIRECT RESULT OF THEIR EFFORTS, HAS MEANT A SAVING OF OVER TWENTY FOUR MILLIONS \$21,000,000, IN THE PAST SIX YEARS TO THE WHEAT GROWERS AND FLOUR MILLERS OF ALBERTA.

THE AMENDMENT TO THE CANADIAN GRAIN ACT, MAKING POSSIBLE THE SHIPPING OF GRAIN BY THE WESTERN ROUTE AT THE DIRECTION OF THE GROWERS, TOGETHER WITH THE RE-ORGANIZATION OF THE GRAIN COMMISSION HAS BEEN OF GREAT ADVANTAGE TO ALBERTA FORMERS. THE U. F. A. WAS TO THE FORE IN THESE MATTERS.

FOR SEVERAL YEARS PAST THE U. F. A. GROUP HAS ASKED THE ABANDONMENT OF THE IMMIGRATION POLICY OF THE GOVERNMENT, WHICH HAS BEEN A FRUITFUL CAUSE OF UNEMPLOYMENT.

RETURNED SOLDIERS RIGHTS, OLD-AGE PENSION, THE RETURN OF THE NATURAL RESOURCES TO THE PRAIRIE PROVINCES, FEDERAL GOVERNMENT ASSISTANCE TO HEALTH UNITS, TECHNICAL EDUCATION AND ROAD CONSTRUCTION HAVE BEEN CONSTANTLY BROUGHT BEFORE THE GOVERNMENT BY THEM. TRUE, IT HAS BEEN SAID THAT WHAT THE U. F. A. ADVOCATES THIS YEAR, THE GOVERNMENT DOES NEXT YEAR.

U. F. A. MEMBERS WHO HAVE MADE A STUDY OF FINANCE, BANKING AND CREDIT, HAVE FOUGHT FOR THE INTEREST OF THE PEOPLE IN THE REVISION OF THE CANADA BANK ACT.

THE U. F. A. AMENDMENT TO THE DUNNING BUDGET CALLS FOR FURTHER INCREASE OF BRITISH PREFERENCE, MORE DIRECT TAXATION, RATHER THAN INCREASE OF TARIFF AND ENCOURAGEMENT OF CO-OPERATION IN PRODUCTION, DISTRIBUTION AND FINANCE.

THE U. F. A. CANDIDATE MR. T. O. KING HAS BEEN AN ACTIVE FIGURE IN THE PUBLIC LIFE OF SOUTHERN ALBERTA. IS KNOWN TO BE A MAN OF BROAD SYMPATHIES, ESPECIALLY DEVOTED TO THE INTERESTS OF AGRICULTURE, OUR PRINCIPAL INDUSTRY. HE HAS SERVED EFFICIENTLY FOR YEARS AS CHAIRMAN OF THE ALBERTA TRUSTEES ASSOCIATION. HE WAS A NOMINEE OF THE WHEAT POOL ON THE CANADA GRAIN STANDARDS BOARD. HE HAS THE UNANIMOUS ENDORSEMENT OF THE LETHBRIDGE FEDERAL U. F. A. ASSOCIATION.

VOTE for T. O. KING on JULY 28th

CATERPILLAR

Notes from the A.C.

Mr. Smith returned on Sunday night from Edmonton and Calgary where he has been conducting experiments on weeds. He reports there are several weeds which are comparatively new to Alberta and which, if permitted to become widely spread, would become a real menace to the country. At present these weeds are only in small areas and it is hoped that their spread can be checked by the use of chemicals.

Mr. Longman has gone to Edmonton for a few days.

Mr. Gilbert has left for a two week's holiday at Cold Lake. He expects to spend a lot of time fishing, so we will look for some interesting fish stories when he returns.

Five additional Hereford calves have recently been purchased from the McIntyre Ranch. These calves are to be fed with the rest of the group which will be shown at the Toronto Royal Fair this Fall.

Mr. Cameron, from the Public Works Department, Edmonton, was inspecting the new sewer, which is nearing completion.

Dr. Neldig, who is in charge of the Fertilizer work for the Consolidated Smelters at Trail, B. C., was here last week for the purpose of checking up on the fertilizer plots in the district. A number of very interesting photographs were taken illustrating the value of the use of fertilizer.

A very successful School Fair Short Course came to an end on Saturday, July 12th. Fourteen girls and fourteen boys were enrolled. The girls and boys stayed at the school. Mr. Gilbert was in charge of the boys and Miss Redig and Miss Petersen in charge of the girls. Early at 6:30 the rising bell sounded, a rush to get dressed and then Physical Training at 7:15. This completed, everyone had worked up a splendid appetite for breakfast, and it was devoured with great relish at 8 o'clock. At 9 o'clock lectures and laboratory periods began, these being conducted by Miss Redig, Miss Petersen, Mr. Longman, Mr. Gilbert, Mr. Asplund, Mr. Ahlsson and Mr. Walker. The girls and boys entered into their work well, and despite the hot weather a happy profitable time was spent by all.

TWELVE GOLDEN RULES FOR CREAM SHIPPERS

1. Milk cows in a clean, well ventilated barn.
2. Wipe off udders with damp cloth before milking.
3. Wash your hand clean before milking.
4. Keep cans and all other utensils spotlessly clean.
5. Wash and seal separator each time it is used.
6. Use water of the same temperature as milk in flushing out the separator.
7. Cool cream down as rapidly as possible after separating. Put the fresh cream in cold water at once.
8. Do not mix cream just separated to cream in your shipping can until it is cooled to the same temperature as the cream in the shipping can.
9. Stir cream in shipping can several times each day and be sure to stir thoroughly while adding each separation to the cream in the shipping can.
10. Keep your cream in a tank of running water if possible. If not, keep your shipping can sitting in a small barrel or tank of water and change the water frequently.
11. Separate a cream testing around 40 per cent. It keeps better than thin cream.
12. Keep your cream where it will not take on a stale, musty taste or odors of vegetables and other farm products.—The Cream Producer.

INDIAN FARMER WILL COMPETE

Muskenew (Strong Eagle) is a Cree Indian farmer of the Pasqua Band located near Fort Qu'Appelle, Saskatchewan. He has made an entry to the competitive classes for grain at the World's Grain Exhibition and Conference to be held at Regina. Needless to say that he is confident of winning a place and of the possibility too of being crowned the world "wheat king" or the "oat king" or the "barley king" or some of the other "kings" to be decorated as such when this great gathering of growers from all over the world convenes in 1932. This portion of the Cree tribe selected exceedingly good land for their reserves. Many of the present generation have always been interested in farming and the raising of cattle. They were friendly to the gov-

INTEREST RETURNS

THE successful farmer gets returns from his crops and he gets returns from his funds.

This Bank adds interest to the money saved by industrious farmers. Have your funds in the Bank earning interest for you?

Save a portion of your income regularly and put it into an interest-bearing Savings Account in the Bank of Montreal.

Ask our local Manager for a copy of the Bank's latest publication, "The Farmer and His Bank".

Opera Season at Banff

Twice a week during July and August, the Light Opera Company of Alfred Heather has been engaged to play at the Banff Springs Hotel. A very wide variety of operas will be produced including Gilbert and Sullivan, eighteenth century compositions and light and ballad operas by Canadian writers and composers on Canadian subjects. Among the artists playing are Alfred Heather, widely known as the original Flib in "The Beggars' Opera," a work which is among those to be produced at Banff; Allan Burt, light baritone, formerly with the American Opera Company; Beatrice Morson, contralto, who toured with "The Beggars' Opera"; Jean Hag, lyric soprano, popular Canadian radio star; Randolph Crowe, baritone, who made a big hit in his rendering of John the Butcher, in "Hugh the Drover"; Mary Frances James, soprano, who has played with success in ballad operas produced at Canadian Pacific Festivals; Herbert Hewetson, tenor; Amy Fleming, contralto, and Enid Gray, mezzo.

Lou King returned from Calgary on Saturday after taking in several days of the Stampede.

Here and There

(538)

Taking turns while the engine was under a full head of steam, Engineer H. J. Storey and Fireman A. Fulkerson, dumped the fire and entered the fire box of the engine to make running repairs of grates displaced from the grate carrier on Canadian Pacific engine 570 at Hope, B.C., recently. They could stand the intense heat only a few minutes at a time but they succeeded in their work and saved serious delay, bringing their train to destination within a few minutes of scheduled time. They were each awarded 10 merit marks, the railway's recognition of conspicuous merit.

Forty-three years ago May 24 last, the first transcontinental passenger train reached Vancouver over the Canadian Pacific Railway, leaving again next day. That was eleven months after the arrival of the first through passenger train at Port Moody, original terminus of the transcontinental line.

"Judging from present indications, there is every reason to believe that the tourist traffic from the United States and from other Canadian provinces to the Maritimes will reach record proportions this season," says George S. Beer, recently appointed district passenger agent for the Canadian Pacific Railway at Saint John, N.B.

Three important appointments in the freight traffic department of the Canadian Pacific Railway have been announced by George Stephen, newly appointed vice-president in charge of traffic. They are: C. K. Jefferson, assistant freight traffic manager, Winnipeg, to be freight traffic manager, Montreal; H. W. Gillis, assistant freight traffic manager, eastern lines, to go to western lines in the same capacity; and Gerald Ham, assistant general freight agent, Montreal, to be assistant freight traffic manager, eastern lines. The appointments were effective from June 1.

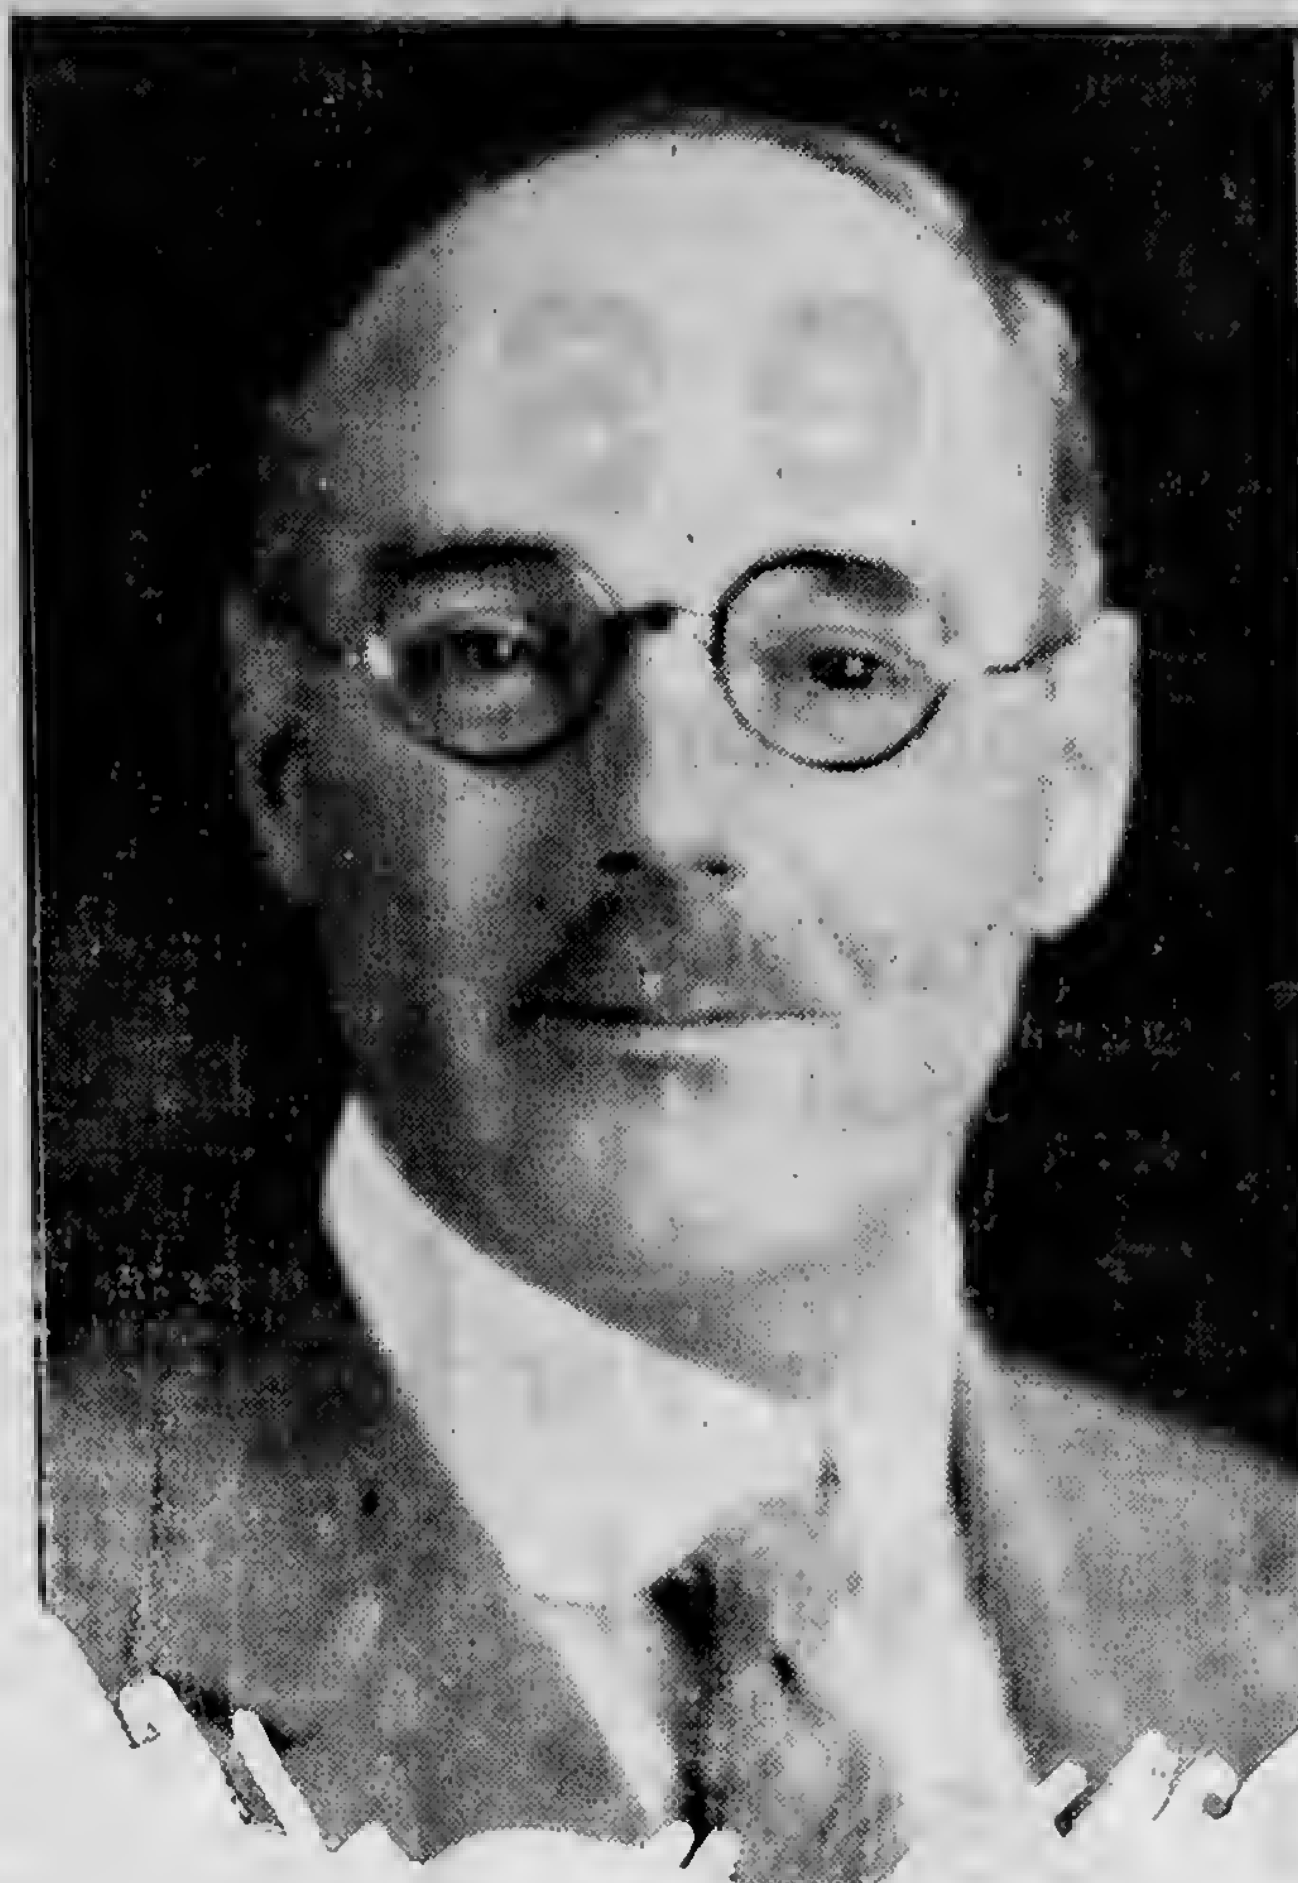

A ten day "all expense" tour of eastern Canada, covering 2,000 miles, and including a visit to the Toronto Exhibition, world's greatest annual fair, will be conducted from the Maritimes by Professor H. L. Stewart, of Dalhousie University, next August. The tour which will take in most of the points and cities of interest in the territory will be over the lines of the Canadian Pacific, Dominion Atlantic and Quebec Central Railways and by Canada Steamships Line.

Six of the Canadian provinces, Nova Scotia, New Brunswick, Quebec, Manitoba, Alberta and British Columbia, have taken advantage of the Farm Loan Act of Canada, a Dominion Government measure under which long term mortgage credit is extended to Canadian farmers. At the end of last March loans to the total amount of \$1,351,000 had been approved.

Canada leads in the following: Fur farming production; wheat and flour exports; world's wheat championships; railway mileage per capita; high grade wheat standards; world's per capita trade; newspaper production of the world; hydro power development per capita; life insurance per capita in the empire; world's largest inland port—Montreal; world's largest smelter of its kind—Trail, B.C.; and largest single-unit grain elevator in the world.

THE MAN

The Lethbridge Riding Needs at Ottawa

A. G. BAALIM

LETHBRIDGE RIDING HAS AN OPPORTUNITY ON JULY 28 TO SEND A SUPPORTER OF THE KING GOVERNMENT TO OTTAWA.

IT IS A PRETTY WELL ADMITTED FACT THAT THE KING GOVERNMENT WILL BE IN CONTROL OF THE GOVERNMENT FOR ANOTHER FOUR YEARS AFTER ELECTION DAY. EVEN THE STRONGEST CONSERVATIVE NEWSPAPER IN CANADA, THE TORONTO MAIL AND EMPIRE ADMITS THAT HON. R. E. BENNETT CANNOT CONTROL MORE THAN 114 SEATS IN THE NEW HOUSE—AND IT TAKES 123 FOR A MAJORITY, AND 125 TO GIVE ANYTHING APPROACHING A WORKING MAJORITY. THE MAIL AND EMPIRE RECENTLY SENT ONE OF THE BEST POLITICAL OBSERVERS OF ITS STAFF ACROSS CANADA TO SIZE UP THE SITUATION, AND HERE IS THE REPORT SUBMITTED AND PUBLISHED BY HIS PAPER:

"THE CONSERVATIVES MAY LOSE ABOUT SEVEN IN THE MARITIMES—PERHAPS MORE; THEY MAY, OR MAY NOT GAIN FOUR OR FIVE SEATS IN MONTREAL BUT CERTAINLY PROVINCIAL SEATS IN QUEBEC WILL STAY AS THEY ARE; THE CONSERVATIVES MAY GAIN 10 IN ONTARIO, EIGHT IN MANITOBA, NINE IN SASKATCHEWAN, TWO IN ALBERTA AND ONE IN BRITISH COLUMBIA. THERE ARE MANY WHO SCOFF AT THE IDEA OF WINNING ANYTHING IN QUEBEC SO WE'LL JUST LEAVE THAT OUT.

"TOTTALLING UP THE REST, IT WOULD GIVE, IF TRUE, A LOSS OF SEVEN AND A GAIN OF 30—A NET GAIN OF 23. THE CONSERVATIVES HOLD 91 SEATS NOW, SO THAT WOULD GIVE THEM 114 AND IT TAKES 123 TO CONTROL THE HOUSE BY A MAJORITY OF ONE."

NATURALLY THE MAIL AND EMPIRE OBSERVER WAS AS OPTIMISTIC AS HE DARED BE—AND IT TAKES OPTIMISM TO GIVE THE CONSERVATIVES 20 SEATS IN THE PRAIRIE PROVINCES WHERE THEY NOW HOLD ONE. BUT TAKING UP ALL THE OPTIMISM AT HIS COMMAND THE MAIL AND EMPIRE REPORTER COULD NOT FORECAST A WIN FOR THE CONSERVATIVE PARTY.

THE FINANCIAL POST, AN INDEPENDENT FINANCIAL PAPER, PUBLISHED IN TORONTO, AFTER MAKING A POLL OF 4,000 BANKERS IN CANADA DURING THE PAST FEW DAYS, FORECASTS ONLY 99 CONSERVATIVES.

EVERYTHING POINTS TO THE RETURN OF THE MCKENZIE KING GOVERNMENT ON JULY 28

LETHBRIDGE RIDING CAN SUPPORT THE KING GOVERNMENT ON ELECTION DAY BY VOTING FOR BAALIM, THE DUNNING BUDGET AND WIDER MARKETS FOR CANADA'S WHEAT.

ATTEND THE BIG LIBERAL RALLY AT RAYMOND ON MONDAY EVENING, JULY 21 WHEN THE CANDIDATE, A. G. BAALIM, SENATOR BUCHANAN AND OTHERS WILL DISCUSS THE ISSUES OF THE CAMPAIGN.

— Inserted by the Liberal Executive Campaign Committee.

WHY BOTHER?

During the ages, the superstitions that were associated with the healing art have gradually disappeared. In the earliest centuries treatment was carried out with ceremonial incantations, mysterious potions and dances, and offerings were made to the spirits. To-day, medicine is a science based upon investigation, experiment and analysis.

In the course of this development, great progress has been made, not only in the treatment of disease but also in its prevention. In one sense, progress has been rapid, but in another, it appears to be slow because there is still much to be learned about the mechanism of the human body, and there are still diseased conditions which baffle us and which seem to be beyond our control.

One thing that has been clearly shown is that many serious and chronic diseases have their beginnings in what are apparently trivial conditions. Every advanced cancer was at one time a local disease which could have been cured. Chronic heart and kidney diseases do not begin as serious conditions; they pass through an early stage. Tuberculosis usually first shows itself as a mild localized disease.

It is for these reasons that we should bother about what we might consider to be trivial diseases or even what seems to be merely a lack of

physiologist fitness. Proper treatment during the early stages is necessary when the most can be done with it, and that is before it becomes firmly rooted in the body. Proper early treatment has much to offer in the prevention of serious chronic diseases against which, in their advanced stages, we have not an specific remedy. Early Treatment is then the answer to Why Bother?

The practitioner of medicine is not a magician. The good he can do is limited by the knowledge he possesses. He does not promise cures, but he does offer the benefits of medical science, and if we are unfortunate enough to suffer, it may be because we have not availed ourselves of his skill. We still delay in securing his services, and it is such delay which leads to serious trouble.

Why bother about minor conditions of ill-health? The answer is that

STOP, LOOK, LISTEN

In an English illustrated paper there appeared a picture of a roadside ambulance station with First Aid workers in charge, and business-like nurses in uniform. It was at a corner of one of the busiest roads in the world—the much travelled road to Epsom on Derby Day. Sensing the need, the British health authorities prepared to meet it in the usually effective British manner.

One would wish that every Albertan would take note of the following figures and determine that they will be reduced, and that he and his will have a hand in helping so to do.

In 1929 Seventy-One people in this province met their death in auto accidents and in the previous year Alberta was the third of all the provinces in the death rate from autos. Last year she was in the fifth place. Other accidents in the city of Edmonton took toll of human life as follows: Five fatal accidents in 1928, seven in 1927, eight in 1928 and ten in 1929. Going up in no uncertain measure, every year, until we shall be having the unenviable record of the United States, where the rate was 23 per 100,000 of the population.

Schools and homes and churches must all unit in the efforts to make life of supreme value. Children must be protected from their own impetuosity, and taught to take time to consider the grave issues—death itself or a maimed body during life. One of the latest feature exhibits at the Red Cross Health Booths at the Alberta Fairs this year, will be a model of a Level Crossing accident where the race was not to the swift, and the supreme price was paid. It is well worthy of the attention of every visitor to the Fairs, and is entitled "Stop, Look, and Listen."

Literature on Safety First and First Aid is available free from Head Office Red Cross Society 407 Civic Block Edmonton.

It costs little to have ears pierced. Any jazz band will do it for nothing.

Here and There

(543)

Three months of hard labor which included the levelling of 21 acres of rolling waste land and the laying of approximately 12 miles of new track, terminated June 5 when the Canadian Pacific Railway finished the construction of "Tex City," Toronto, for the accommodation of the huge army of Shriners who held their convention in that city recently.

Lake Minnewanka, famous sheet of water in the Canadian Rockies, not far from Banff, has entered angling history with the capture recently of the largest trout ever taken from the lake. It weighed 40 lbs. 8 ounces and was 41 inches in length and 32 inches in girth. It has been stuffed and is now in the Banff museum.

The immensity of the progress made and the almost boundless prosperity he sees ahead for Canada has brought home to him the great need for the awakening of England to a better understanding of the Dominion, was the statement made recently by Major L. A. M. Jones, economic supplements editor of the Morning Post, London, England, who is making a several months tour of Canada studying conditions here.

During the course of the forthcoming World Power Conference to be held in Berlin, Germany, June 26, C. Lefebvre, delegate for Canada, will propose that the next convention shall be held in Canada in view of the rapid strides made in matters electrical by the Dominion. Mr. Lefebvre sailed for Europe recently on board S.S. Empress of France.

June 2 saw the furnishings of the new central tower extension of the Royal York Hotel, Toronto, completed. Altogether there are 152 guest rooms in this wing, including six period suites, art modern, flower, Dutch and Tudor. The Royal York is the largest hotel in the British Empire and with this addition numbers 1,156 rooms.

Fenwick Saunders, riding his bicycle at Tuskent, N.S., recently, saw a salmon disporting itself in shallow water near Tuskent Dam. He crept cautiously up, grabbed the fish which almost escaped, dragging him into deep water, but although out of his depth, succeeded finally in getting a 10-pounder fish safely ashore.

Radio continues to advance in popular favor in Canada. At the end of March, 1930, there were 423,557 radio receiving licenses issued by the Canadian Government radio branch of the Department of Marine, compared with 296,926 on March 31, 1929, an increase of 126,631 in the 12 months.

The number of motor vehicles registered in Canada during 1929 was 1,193,889, an increase over the 1928 registration of 1,17,070 or 10.3 per cent. This was an average of one motor vehicle to each 8.2 persons. Canada ranks third among the countries of the world in the number of automobiles in proportion to the population.

"HOLT" COMBINE IS NOW "CATERPILLAR"

SEVENTY-FIVE YEAR WORKING HISTORY OF COMBINED HARVESTERS BACK OF "CATERPILLAR"

A change in the name of the Holt Combine to "Caterpillar" Combined Harvester, was announced by Union Tractor and Harvester Company, Ltd. dealers for "Caterpillar" Tractors and the newly-named "Caterpillar" Combined Harvester in Central and Southern Alberta.

The new name is given to the combine which has an 85-year working history back of it, 75 in California, a new land at the 49 gold strikes, was so weighed down by high prices for even the commonest articles that anything which suggested a cheaper method of producing the needed food supplies was eagerly tested. That is why California led in the development of harvesters from the imported Michigan machine of 1854 to the present day.

Stockton, California, became the center of the harvester industry. It is here that such features as link belt chains, the first side hill combine, the first friction clutch were introduced by Benjamin Holt, Daniel Best of San Leandro, California, perfected the use of the gasoline engine for powering harvesters. The features in the present "Caterpillar" Combine can be traced directly to this background.

The windrow system, offered the forming public three years ago for the first time, has also been perfected in the 1930 models until it is ready to make practically any small grain or seed crop anywhere "Combine-able."

Insects ruin many a picnic, complains a writer especially when they forget the corkscrew.

WHEN JOHNNIE WON'T EAT

When little Johnnie pushes away his dinner plate, turns his head and emphatically registers his protest against food, Mother grows gray with worry and anxiety. Sometimes she may cajole often she will scold and in rare cases she will spank the small little John in her endeavor to bring him to reason. Often everything fails and John is the winner.

For just such mothers there is an excellent article by Dr. Ira Wile in Hygeia. The doctor believes that a child's eating habits are the result of his home training, good or bad. He says there are various reasons for Johnnie's refusal. For example, he maybe overtired and in that condition of exhaustion he cannot respond to food. A rest would conduce to an appetite and small children need much rest between meals. Another cause is one of physical origin, when John refuses because he loves the attention that he secures thereby. Too much attention is often fatal, and frequently the child receives an overdose of instruction in table manners which turns him away from the enjoyment of his meal. The niceties of eating and the use of utensils the ability to manage without spilling is really a matter of time, and as the child grows older, so he unconsciously acquires the habits of good breeding from the grown-ups at the family board.

Dr. Wile suggests that Johnnie should be allowed to miss a meal or two if he wants to, he should also be completely ignored when he appears in a negative state of mind and on no account must he see the over solicitude of his parents. It is a cardinal rule, never to show by look or word, or gesture, the slightest concern as to whether he eats or not. It is well to place smaller portions of food on the plate before the tired looking child, and all emotional distress must be avoided.

For health literature on children, send to the Red Cross, 407-Civic Bldg. Edmonton.
